5.1	██████████ (Managing Director)	26.7.22
5.2	██████████ (Managing Director)	25.11.22
5.3	██████████ (Managing Director)	27.7.24

## Audio Management

Goomfest will provide quality sound and production. We understand the necessity of professional audio technicians and assuring that the wider communities needs are adhered to. At Goomfest events we will ensure that:

- Where possible will position the PA / Speakers / stage facing away from residential areas / businesses zoning.
- Monitor the sound levels throughout the event.
- Will adhere to the EPA, council regulations and advice to the best of their capability
- Will take any recommendations as provided by council how to best facilitate the sound and engineering for the event.
- Notify local residents of the event personally and through public marketing, online marketing, paid promotion, media releases and posters.
- Will take note of residential concerns / queries / issues and directly and promptly deal with any issues that may arise at the recommendation and advice of the council
- Contracted audio engineers are professionally trained and qualified.

The Audio Engineers hired for this event are from D.I.Y HiFi.

Audio engineers will be in communication with Stage managers, Event manager and Emergency officer to make any announcements or alerts on the P.A.

For Risk Management relevant to sound engineers refer to **APPENDIX A**
